OTHERS ALREADY KNOW.[™]

ABOUT OUR COMPANY

DECKWISE®, THE IPE CLIP® FASTENER CO., LLC, manufactures deck building products for use with exotic Brazilian hardwoods, thermally modified wood and composite material. Our decking products and accessories have been developed by our in-house professional team of engineers, machinists, and mold makers from what contractors have asked for.

Our claim to fame is our patented **IPE CLIP® EXTREME® HIDDEN DECK FASTENER** series comprised of a stainless steel reinforcing insert that firmly holds decking to joists with up to 3X more hold-down strength than other edge-mount deck fasteners.

From the time our company was founded in

2000, every year has brought extensive growth. With every innovative decking product we bring to the market we continue to expand our worldwide footprint of dealers and distributors. We align with their main goal to provide their customers with the highest-quality decking tools and accessories on the market.

DeckWise.com

Manufacturers of Hidden Deck Fasteners & Accessories

- 1** DeckWise® hardwood deck tiles with connector system installation.
- 2** Composite decking installed with DeckWise® ExtremeKD® hidden deck fastener system.
- 3** Beautiful hardwood stairs fastened down by DeckWise® hidden fasteners.

A WiseChoice™

If it says DeckWise®, you know you are using the best there is.

HIDDEN DECK FASTENERS

Manufactured By DeckWise®

Ipe Clip®

Hidden Deck Fasteners

The DeckWise® Ipe Clip® **EXTREME®** Hidden Deck Fastener line features a hardened stainless steel insert with a black oxide coating. The insert is molded inside the fastener for the ultimate

concealed look with supreme reinforcing hold-down strength.

Every hardwood deck built with the DeckWise® Ipe Clip® EXTREME® hidden deck fastener series will produce a smooth, beautiful and longer-lasting deck for generations to come.

{ Available in our **3 SIGNATURE COLORS** to match your decking. }

Shadowline Black • Hardwood Brown • Composite Gray

COMPLETE KIT CONTAINS

- (175) Ipe Clip® Hidden Deck Fasteners
- (190) Stainless Steel Star Drive Deck Screws
- (12) 3/8" Tapered Ipe Plugs
- (1) 1/8" High Speed Drill Bit
- (1) T15 Star Drive Tip
- (3) Deck Board Spacers*
- (1) Instruction Sheet

100 CT. KIT CONTAINS

- (100) Ipe Clip® Hidden Deck Fasteners
- (100) Stainless Steel Star Drive Deck Screws
- (1) Instruction Sheet

Deck Screws can be ordered in multiple sizes, types and colors depending on your decking application.

*Deck board spacers are included in EXTREME-S® and EXTREMEKD® kits only.

Use With Exotic Hardwoods, Composite Decking, & Thermally Modified Woods!

EXTREME®

Gap Spacing 3/32" (2,4mm)

EXTREMES®

Gap Spacing 5/32" (4mm)

EXTREMEKD®

Gap Spacing 1/4" (6,4mm)

Recommended for use with:
**Air-Dried Lumber
& Composites**

Hardened stainless steel insert with a black oxide coating inside rigid UV and chemical-resistant polypropylene.

Thinner leg maintains a perfect gap when deck material naturally contracts and expands.

Short leg height = .242" (6,14 mm)
Tall leg height = .375" (9,525 mm)

Recommended for use with:
**Air-Dried, Kiln-Dried
Lumber, & Composites**

Hardened stainless steel insert with a black oxide coating inside UV and chemical-resistant polyethylene.

Versatile leg is compatible with most decking materials. Leg returns to it's original shape as decking material expands and contracts.

Leg height = .242" (6,14 mm)

Recommended for use with:
**Kiln-Dried Lumber,
Composites, & PVC**

Hardened stainless steel insert with a black oxide coating inside UV and chemical-resistant polyethylene.

Hollow leg acts as a shock absorber as decking material expands and contracts.

Leg height = .242" (6,14 mm)

EXTREME® Ipe Clip® Series - U.S. Patent Numbers 8,464,488 and 8,806,829. Original, "round", STANDARD Ipe Clip® - U.S. Patent No. D470,039. EXTREMEKD® and EXTREME4® Licensed under U.S. Patent Nos. 7,874,113 and 8,161,702 Patent.

CONTRACTOR BUCKETS

2 & 5 GALLONS

Manufactured By DeckWise®

Use with exotic **HARDWOODS**,
THERMALLY MODIFIED WOODS &
COMPOSITE DECKING.

DeckWise® Ipe Clip®
Limited Warranty

The **CONTRACTOR BUCKETS** from DeckWise® were designed with professional contractors in mind. Containing enough Ipe Clip® fasteners, deck screws and accessories for the largest decking projects; everything deck builders need to get the job done.

DeckWise® Contractor Buckets are available in both 525 and 1050 quantity containers.

STAINLESS STEEL TRIM-HEAD DECK SCREWS

Distributed By DeckWise®

**#8 STAINLESS STEEL
DECK SCREWS**
For hardwoods & thermally
modified woods.

Builders know the DeckWise® brand of stainless steel **TRIM-HEAD** deck screws are a great way to ensure deck boards stick tight to joists with hidden deck fasteners. As part of the DeckWise® line of deck building products, our Colormatch screws give builders and DIY homeowners a reliable and secure way to fasten most types of decking material. From exotic hardwoods to thermally modified woods and composites, we've got you covered.

- 305 grade stainless steel provides anti-corrosion benefits (Also available in 316 marine grade stainless steel. Call for availability.)
- T15 Star Drive finish heads for less stripping
- Type 17 auger tip for easy penetration

Colormatch your #8 deck screws to your decking material with 6 signature color choices.

STAINLESS STEEL BUGLE-HEAD DECK SCREWS

Distributed By DeckWise®

**#10 STAINLESS STEEL
DECK SCREWS**
For all types of deck building needs.

The DeckWise® **BUGLE HEAD T25** stainless steel decking screws are perfect for any patio or deck project including many framing projects. The double countersink flat bugle head has 6 nibs and utilizes a 6 lobe T25 star drive to reduce cam-out and increase torque. This screw is a chipboard thread screw with partial thread and triple spline (one at the beginning on the

thread and two at the end of point). Easily penetrate dense hardwoods with the Type 17 point.

DeckWise® Colormatch #10 decking screws are made from high-quality 305 grade stainless steel for optimum performance with hardwoods, thermally modified woods, as well as composite decking material.

- 305 grade stainless steel for optimum anti-corrosion performance (Also available in 316 marine grade stainless steel. Call for availability.)
- T25 Star Drive finish heads

STAINLESS STEEL HEAT-TREATED DECK SCREWS

Distributed By DeckWise®

#8 STAINLESS STEEL DECK SCREWS

Heat-treated for toughness.

The **DECKWISE® HTSS™** (Heat-Treated Stainless Steel) deck screws offer our specially engineered four-sided tips with a serrated thread design to minimize board splitting or splintering, even when screwing near the edge.

Our HTSS™ screws are an 18-8 heat treated screw for hardened toughness and feature the patented **ttap®** T15 Star Drive head with locking nib. This means, less stripping, less snapping and less headaches when installing hidden deck fasteners, hidden siding fasteners or face screwing.

This screw design has been engineered exclusively for DeckWise® to make hidden fastener installations quicker than ever.

#8x1-3/4" & #8x2"

- **ttap®** T15 Star Drive head for less slipping
- Heat treated for hardened toughness
- Serrated saw threads remove sawdust
- Four sided tip for self-drilling

* **ttap®** is a registered trademark of Ttapdrive AS

DECKWISE® HTSS™ are heat treated for toughness and longevity on exotic or thermal wood decking. We suggest using the DeckWise® Drill&Drive™ drill bit set which comes with 1/8" bits, T15 tips and a 3/8" countersink.

NOTE: Pre-drilling is always suggested for quick installations of fasteners including countersinking for screw heads.

ttap® *feel the difference™*
patented

Locking bit to eliminate slipping.

Use in conjunction with the DeckWise® Drill&Drive™.

#8x2" (4x50mm)	✓	✓	✓	✓

DeckWise® HTSS™ deck screws are available as an option in all Ipe Clip® Hidden Deck Fastener Kits.

STAINLESS STEEL METAL JOIST DECK SCREWS

Distributed By DeckWise®

**#7 STAINLESS STEEL
DECK SCREWS**
Use on stainless steel
and sub-framing.

More and more these days, contractors, architects and DIY deck builders are utilizing metal joist substructures to ensure longer-lasting, lower maintenance decks. The DeckWise® **SELF-TAPPING METAL JOIST DECK SCREW** is designed explicitly for metal joist applications.

This handy deck screw can be used to attach most types of decking material such as hardwoods, heat treated lumber, soft woods, composite and PVC with aluminum and steel substructures.

The self-tapping tip will penetrate metal joists underneath with ease. DeckWise® metal joist deck screws are high performance fasteners, which allow deck builders and architects to provide their customers with uniform and long-lasting clean surfaces when used with our Hidden Deck Fasteners.

STAR RECESS & UNDERCUT HEAD

Deep T-15 star tip recess; specially engineered head which eliminates slipping and stripped heads.

TRIPLE STRENGTH CORROSION RESISTANCE

410 stainless steel + Xylan coating + Bright hardening.

SELF-TAPPING POINT

#3 drill point digs into decking material with ease and cleanly penetrates the underlying steel or aluminum joists.

Shadowline Black • Hardwood Brown • Stainless Steel

Colormatch these #7 deck screws to match decking material with 3 signature color choices.

Sizes Available	100 count	350 count	1050 count	1750 count
#7x1-5/8" (3.9x41mm)	✓	✓	✓	✓
#7x2-1/4" (3.9x57mm)	✓	✓	✓	✓

DeckWise® Metal Joist Deck Screws are available as an option in all DeckWise® Hidden Deck Fastener Kits.

STAINLESS STEEL COMPOSITE DECK SCREWS

Distributed By DeckWise®

Sizes Available	100 count	350 count	1050 count	1750 count
#10x2-1/2" (5x64mm)	✓	✓	✓	✓
Hardwood Brown	Rosy Brown	Cedar	Composite Grey	Composite Sand
				

Our **305 GRADE COMPOSITE SCREWS** are made to the same high standards as the DeckWise® products you've come to trust. These #10 x 2-1/2" screws are made of strong, corrosion-resistant stainless steel. Painted heads, in your choice of Hardwood Brown, Rosy Brown, Cedar, Composite Gray, or Composite Sand match the most popular colors of composite decking. The advanced auger point and thread design means

these screws perform the way you need it to, ensuring the highest quality deck building results.

These composite deck screws come with a T20 star drive and reverse threads directly below the head which, eliminates unsightly "mushrooming" of the composite decking during installation. Dual threads further compress fibers and pull deck boards tight to the joist. All done effortlessly without the need for pre-drilling or countersinking.

#10x2-1/2"

Hardwood Brown

Rosy Brown

Cedar

Composite Gray

Composite Sand

- T-20 drive delivers plenty of torque without stripping out the heads
- Head designed to eliminate mushrooming or marring of deck surfaces
- These flutes grab the board and hold it tight to the joist
- Middle threads compress fibers deep in the hole, further helping to reduce mushrooming
- Lower threads grab the joist to additionally hold the board tight to the joist
- Sharp Type 17 auger point cuts fast and clean without splintering or splitting

5 color choices to match the most popular colors of composite decking.

HARDWOOD PLUG KIT COMPLETE SYSTEM

Manufactured By DeckWise®

DeckWise® **HARDWOOD PLUGS** help ensure a truly smooth, flat deck surface.

HARDWOOD PLUGS SMOOTH

A tapered design makes installation smooth and easy. Available in four different hardwood species to match your decking.

Sizes Available	Cumaru	Tigerwood	Ipe	Massaranduba
3/8" (9,5mm)	✓	✓	✓	✓

EXTREME PLUGS® RIBBED

Most holes are not drilled perfectly round because a hand held drill wobbles during use creating an oblong hole. The EXTREME PLUGS® tolerance-absorbing rings around the diameter snugly fill oblong holes and provide more surface area for glue to hold tight.

Patent pending.

Sizes Available	Cumaru	Tigerwood	Garapa	Ipe	Massaranduba
3/8" (9,5mm)	✓	✓	✓	✓	✓
10mm	✓	✓	✓	✓	✓
12mm	✓	✓	✓	✓	✓

Custom sizes available for our **HARDWOOD & EXTREME PLUGS®**. Ask an associate for details, pricing, and minimum quantities.

When hidden deck fastening is NOT the preferred choice, we have the perfect complete hardwood plug kit for face screwing on the market. Our **Master Plug Kit** solves the problem by including your choice of four hardwood plug specie (smooth only) including a leading brand of wood glue in every kit. The DeckWise® Master Plug Kit fills in the gap where other so-called “complete wood plug kits” leave open.

Finally, builders have the all-in-one system they've been asking for.

MASTER PLUG KIT

- 350 ct. or 1,050 ct. Hardwood Plugs
- 350 ct. or 1,050 ct. DeckWise® #8x2" 305 grade Stainless Steel Screws
- 1 Complete Drill&Drive™ 3-in-1 Drill Bit Set
- 4 oz. Bottle Of Gorilla Glue®
- Substitute screw options available. Call DeckWise® for a quote.

100, 350, 1050, & 1750 COUNTS

HARDWOOD DECK OIL NATURAL FINISH

Distributed By DeckWise®

Ipe Oil®

Hardwood Deck Finish

Ipe Oil®

Plus™
Hardwood Deck Finish

HARDWOOD PROTECTION

IPE OIL® & **IPE OIL® PLUS™** Hardwood Deck Finishes are an oil-based natural wood finish specifically designed for use on exterior hardwood decks and hardwood siding. Both finishes provide excellent penetration on the most dense of hardwoods with minimal raising of the

grain. They protect and condition the hardwood while maintaining a completely natural appearance. Formulated for use on most exterior hardwood surfaces to enhance its natural beauty resulting in an exceptional luxurious appearance. Each come in 250 VOC and 100 VOC formulas.

PROVIDES:

- Exceptional Penetration
- Natural Grain Enhancement
- Water Repellency
- UV Barrier Protection
- Reduces Chances of Warps & Cracks

APPLICATIONS:

- Hardwood Decks
- Fences
- Hardwood Siding
- Wood Railings
- Outdoor Furniture
- All Exterior Wood Surfaces

1 US Gallon Covers Approx. 250-300 sq. ft. (23-27m²)

Hardwood Care & Maintenance

RESTRICTED: Ipe Oil® 250 VOC can NOT be shipped to California areas including but not limited to LA SCAQMD.

WISECOAT®

Hardwood Deck, Siding & Fence Sealer

1 US Gallon Covers Approx.
250-300 sq. ft. (23-27m²)

DeckWise® **WISECOAT® PREMIUM WOOD SEALER** is a low VOC non-toxic waterproofer and sealer designed for use on hardwood decking and siding surfaces. This water-based formula utilizes proprietary nanotechnology to create a long-lasting breathable barrier against caustic weather conditions. By coating the wood fibers down at the cellular level, WiseCoat® provides protection from the inside out preventing cracking and splitting of the wood.

- Low 53 g/l VOC
- Prevents water intrusion
- Non-toxic & non-flammable
- Eco-friendly
- Enhances wood stability
- Prevents the effects of mold and mildew
- Water based and odorless
- Will not harm pets, plants, & people
- Easy clean up with soap & water

APPLICATIONS:

- Decks
- Fences
- Siding
- Outdoor Furniture
- Docks
- Shake Roofs
- Railings
- Timber Framing
- Play Sets

The unique formula absorbs deeply, inhibiting water intrusion by penetrating the hardwood surface to protect and stabilize the wood. WiseCoat® helps prevent the damaging effects of mold and mildew, dry rot, peeling, cupping of wood. As a non-film forming water-based sealer, it allows exotic and thermally modified hardwoods to age naturally without decay. WiseCoat® includes a semi-transparent tint that functions as a UV blocker to prevent the hardwood from graying while enhancing the natural grain and texture.

HARDWOOD END GRAIN PROTECTION

Distributed By DeckWise®

Ipe Seal®

Hardwood End Grain Sealer

IPE SEAL® is a wax emulsion sealant proven to increase the structural integrity of hardwood lumber. Designed to prevent end checking (drying splits) in freshly sawn logs, lumber, turning blanks, and other exposed wood end grain. Ipe Seal® creates a bond

that extends the life of each deck board.

NOTE: Due to differences in wood species, variations in climatic conditions, and individual usage methods; results are NOT guaranteed.

Ensure your **LUMBER** is
PROTECTED from an early stage!

DO NOT apply to walking surfaces, this sealer is very slippery.

LUMBERYARD PROTECTION

DeckWise® has made it easier for lumber mills and yards to protect their wood inventory. Ipe Seal® is now packaged in a heavy duty 5 gallon plastic pail with a pour spout for easy filling.

Don't let your investment in exotic woods or thermally treated lumber disappear with unsightly end checking and splitting. Utilize this 5 gallon bucket for unmatched protection against the weather.

HARDWOOD CLEANER & BRIGHTENER

Distributed By DeckWise®

Product Applications:

- Hardwood Decks
- Hardwood Siding
- Fences
- Wood Railings
- Outdoor Furniture
- All Exterior Wood Surfaces

16 oz. (450g)

Smooth Wood: 500 sq. ft. (46 m²)

When it comes to building with hardwoods, we want long-lasting results. We want the natural wood color to show. However with time, wood gets dirty, mildew infested and loses its luster and natural hardwood appeal.

DeckWise® **WOOD CLEANER** and **WOOD BRIGHTENER** remove dirt and graying in preparation for re-oiling and applying finishes such as Ipe Oil®.

These concentrated powders are formulated specially to cleanse and brighten exterior hardwoods safely.

32 oz. (900g)

Smooth Wood: 1000 sq. ft. (92 m²)

PRODUCT INFORMATION

- Cleans and brightens outdoor/exterior wood and removes dirt and graying
- Always clean before oiling and finish staining of wood surfaces
- Biodegradable, easy to handle and safe
- Outstanding for all exterior hardwood maintenance
- Concentrated powders provide maximum strength

BRAZILIAN DECK TILE HARDWOOD

Manufactured By DeckWise®

WiseTile®

YOUR OUTDOOR HARDWOOD FLOOR™

LUXURIOUS.
LONG-LASTING.
EXCEPTIONAL VALUE.

WiseTile® **HARDWOOD DECK TILES** are modular solid Brazilian hardwood tiles that will transform any horizontal surface such as a balcony, an unsightly cracked concrete slab, outdoor shower, rooftop, pool/spa area or even an existing deck into a modern, elegant living space. WiseTile® Hardwood Deck Tiles offer homeowners and professionals affordable, semi-permanent decking that is quick and easy to install.

WiseTile® **HARDWOOD DECK TILES** are renewable & responsibly harvested from sustainable well-managed forests.

Available Deck Tiles	20" x 20"	24" x 24"
Ipe	✓	✓
Tigerwood	✓	✓
Cumaru	✓	✓
Massaranduba	✓	✓

IPE (pronounced "ee-pay") is valued for its toughness, strength, and natural resistance to decay, fungus, and pest infestation. Ipe wood is a beautiful rich brown with reddish and amber hues.

CUMARU denseness is comparable to Ipe. Its even, golden brown coloring and moderate price make it an appealing alternate to most high priced hardwoods.

MASSARANDUBA is actually 2X more durable than California Redwood. Massaranduba tiles focus on one thing... a breathtaking velvety red appearance.

TIGERWOOD has superb hardness and durability, but is best known for its unique color. Deep red and golden brown hues with dramatic dark brown and black streaks give it an exotic look.

VERSATILE & CONVENIENT!

- Quick, easy installs
- Semi-permanent decking
- Low maintenance
- Extremely durable
- 100% natural, chemical-free hardwood

HARDWOOD DECK TILE CONNECTORS

Manufactured By DeckWise®

With the DeckWise® **DECK TILE CONNECTOR SYSTEM**, you never need to worry about loose or uneven gaps between tiles. Each patented connector comes with a 3/16" spacer for perfect spacing between every deck tile.

The Deck Tile Connectors have pre-drilled countersink holes ready for fastening to any existing surface or substructure.

Shadowline Black • Hardwood Brown • Concrete Gray

Available in our **3 SIGNATURE COLORS** to help ensure a truly smooth, flat deck surface.

During installation, use the entire connector; use halves or quartered tile connectors on hidden and exposed edges including corners. Use the edge of the spacer to provide a gap between your new tiled deck and any adjacent structure such as a house, fence, or wall.

Simply score the connector using a utility knife along the molded grooves that mark the edges of the built-in spacers. Bend the edges downward to snap the connector in half. Repeat the same process to use a quarter of the connector to install on the corners of a deck tile layout.

U.S. Patent Number D665,657

- Corner pins secure tile placement
- Elevates the deck tile from wet underlying subsurfaces to help prevent wood rot
- Chemical & UV resistant polyethylene
- Pre-drilled countersunk holes for easy fastening into a concrete slab or any substructure
- Preset 3/16" gap spacing for even gaps between all connecting deck tiles
- Can be divided into halves or quarters easily with cutting tools using the molded score lines
- Center drain hole provides improved drainage for water runoff to prevent pooling in the corners
- Matte texture provides better appearance between gaps

DECK TILE PEDESTAL ELEVATION SYSTEM

Manufactured By DeckWise®

ALTITUDES PEDESTAL® FOR HARDWOOD DECK TILES

The DeckWise® **ALTITUDES PEDESTAL® SYSTEM** is engineered to build perfectly horizontal decking over underutilized spaces such as sloped rooftops and plaza areas. This system enables anyone to easily and quickly build an all-natural hardwood deck surface by elevating 24" x 24" modular hardwood deck tiles over uneven concrete, rooftops,

plazas, or walkways. Install deck tiles on sloped or uneven rooftops to hide pipes, cabling, drains or service ducts without the need to construct extensive sub-framing. Build luxurious decking where it was once impossible into a gorgeous family or party area to enjoy for years to come.

Pedestal systems utilize a head, a base and Schedule 40 PVC pipe to make installations simple for multiple height accommodations (up to 24 inches at their maximum safe height).

APPLICATIONS

- Rooftops
- Balconies
- Walkways
- Patios
- Verandas
- Resurface existing decks
- Use over uneven concrete

Schedule 40 PVC Plain End

4" x 2ft.

Convenient pre-cut PVC can be ordered and shipped to make pedestal installations much quicker with less headaches.

Pre-cut pieces measure 4" in diameter and are 24" long to allow for maximum pedestal heights as well and multiple smaller PVC support heights for an efficient installation.

Orders can range from single pieces or by the case.

Limited Warranty. U.S. Patent Numbers D728,185, D738,589, 9,556,621, and 9,803,377. Other patents pending.

Each Altitudes Pedestal® System Head and Base has drainage holes and channels for water; are exceptionally stable using 4" PVC Schedule 40 Plain End Pipe; and are impervious to freeze-thaw cycles due to the use of 20% Talc added to their polypropylene resin make up. Pedestals are warranted up to 1,200 lbs. of load. For complete Lab testing results go to www.deckwise.com/pedestal/testing

3-IN-1 DECK BUILDING DRILL BIT SET

Distributed By DeckWise®

DRILL & DRIVE™

Deck builders quickly realize how much faster and more productive deck installations become once they start using the DeckWise® **Drill&Drive™**

drill bit set. For DIY homeowners and contractors, the Drill&Drive™ system can be used for more than deck building. Its utility makes it the perfect solution for complete deck builds, touch-up jobs, or home renovation projects.

Use with exotic **HARDWOODS, THERMALLY MODIFIED WOODS, & COMPOSITE DECKING.**

Every Drill&Drive™ Kit Includes:

- 1 Quick Change Locking Collar
- 2 1/8" High-speed Drill Bit & 3/8" Countersink Tool with T15 Star Drive Tip
- 3 1/8" Drill Bit & 3/8" Countersink
- 4
- 5
- 6 On-board Hex Key
- 7
- 8
- 9
- 10 T15 Star Drive Tip

DRILL

The DeckWise® **DRILL&DRIVE™** is a 3-in-1 drill bit set that allows builders to pre-drill, countersink, then flip the bit insert to quickly drive a stainless steel screw into hidden deck fasteners or siding fasteners.

The whole process is up to 3X faster and more efficient than standard drilling, changing bits and driving screws with a separate bit.

FLIP

1/8" Drill bit

Screw gun tip

Adjustable pilot hole and counter-sink drill bit system

Use to **COUNTERSINK** face screws or for **DRILLING PLUG HOLES** with pilot holes all in one step.

DRIVE

Locking set screws

Quick change locking collar

On-board hex key

HARDWOOD BOARD STRAIGHTENING

Manufactured By DeckWise®

HARDWOOD™ WRENCH

One-Man, One Hand Installation.®

The **HARDWOOD WRENCH™** is the most advanced board straightening tool ever created. Install hidden deck fasteners or hidden siding fasteners with the original cam-locking tool. This is true “One-Man, One-Hand Installation.®” With a pushing force close to 1100 lbs., the Hardwood Wrench™ gives you up to 8X more bending

power over other hardwood board straightening tools.

An ergonomic handle and solid stainless steel joist pins give you the ability to straighten boards from both left or right hand directions. This is very useful when installers need to straighten a board on the outside of framing or in hard to reach areas.

{ The reversible handle and joist pins can be set for **DECKING** or **SIDING**. }

EXPANDABLE & REVERSIBLE

Works with single or double joists up to 3.75" wide and all types of decking, including pre-grooved or standard lumber, composites, and thermally modified woods. The reversible handle accommodates multi-directional installation needs.

VERSATILE DESIGN

The knurled joist pins and handle of the Hardwood Wrench™ are interchangeable and will grab furring strips for hardwood siding. Straighten boards in up to 10 different configurations.

1

Position The **HARDWOOD WRENCH™** On The Joist.

2

Rotate Handle To Straighten Bowed Boards.

3

Cam Locks In Place, Holding Boards Straight.

1 + 10 + 1100 LBS. = **THE ULTIMATE**
TOOL CONFIGURATIONS BENDING FORCE DECK BOARD STRAIGHTENER

LOCKING CAM holds boards in place while fasteners are installed.

Knurled Stainless Steel Joist Pins For Increased Gripping

Adjustable Stainless Steel Joist Pins For Use On Up To 3.75" Joists

Hard-Anodized Aircraft Grade Aluminum

Solid American Ash Handle

Stainless Steel Multi-Position Handle

The Hardwood Wrench™ tool is easy to operate by a single installer with many benefits over other methods of straightening hardwood boards. Just a simple swing of the Hardwood Wrench™ handle and it bends an extremely bowed hardwood board as straight as an arrow.

Patent Numbers: US 8,936,054; 10,526,801B2; D623,913; EP 2,387,648; DE202010001036.5; UK 2,469,964; AU 2010210940; CA 2,749,643. Other patents pending.

STAINLESS STEEL DECK CABLE PRE-ASSEMBLED KITS

Distributed By DeckWise®

WiseRail®

Decks are constructed in all sizes and shapes. However, there are only a handful of cable runs that can go on those decks; inside-of-post to inside-of-post, inside-of-post to outside-of-post, and outside-of-post to outside-of-post. The DeckWise® **WISERAIL® WISECABLE®** kits allow several methods to run cable on any deck.

Every kit is designed to create an unobstructed view and is an attractive addition to any hardwood or wood deck project. Our invisible hardware hides inside the end

posts so you can't see them. The DeckWise® WiseRail® Ready-To-Install Kits come pre-packaged with high quality stainless steel cable and sleek stainless steel hardware fittings.

These cable railing kits are easy to install and can be utilized for both outdoor and indoor residential and commercial applications. For DIY enthusiasts, DeckWise® offers these pre-assembled cable railing kits for wood posts in lengths from 5 feet up to 50 feet.

{ **WISECABLE® RAILING KITS** offer flexibility and strength for a sleek, unobstructed deck view. }

- Post Protector Tube
- Cable Release Tool
- Hanger Bolt Driver
- Cut-off Wheel
- Cable Cutter
- Cable Braces
- SS End Caps

DECK BOARD SPACER GAP TOOLS

Manufactured By DeckWise®

WiseGuides®

WISEGUIDES® Deck board spacers by DeckWise® are a great addition to any deck building toolbox. The versatile design allows builders to use these board spacers in any position between boards. With their bright color-coded design, finding the right spacer is much easier than the other generic, disposable

brands on the market. The special V-blade design of DeckWise® board spacers prevent denting and marring of the deck boards when pressed together during installation. Moving laterally in between boards is a breeze thanks to the spacer's unique handle.

Use with **HARDWOODS, PT, THERMALLY MODIFIED WOODS, & COMPOSITE DECKING**
... any decking material!

SELF-ADHESIVE FLASHING BARRIER TAPE

Distributed By DeckWise®

®

When **WISEWRAP® JOISTTAPE™** flashing tape is applied to the top of deck joists or **LEDGERTAPE®** over ledger boards, it creates a self-sealing waterproof barrier that helps prevent decay and wood rot. Nails, screws and hardware are sealed preventing the intrusion of water.

{ Use on
**FENCE
POSTS!** }

{ Use on
**DECK
POSTS!** }

WiseWrap®
JOISTTAPE™

3" x 75' Roll

JoistTape™ prevents wood decay when deck screws or nails penetrate the deck boards, piercing the joist sub-framing below. Use as a noise dampening barrier as well.

WiseWrap®
LEDGERTAPE®

12" x 25' Roll

When applied over ledger boards or around wooden posts, LedgerTape® creates a waterproof membrane that prevents wood rot and decay caused by ground moisture.
