

TECHNICAL DATA SHEET WISEWRAP BUTYL JOIST TAPE

DeckWise manufactures a wide range of innovative waterproofing products for the home repair and construction industries. With decades of field experience, DeckWise products are engineered for superior performance and ease of installation.

DESCRIPTION

WiseWrap Buty JoistTape is a self-adhering protective membrane engineered to protect decks from premature rot and corrosion. WiseWrap Buty JoistTape features a high-performance butyl hybrid adhesive with a high strength non-slip polypropylene backing. WiseWrap Buty JoistTape will self-seal around nails and fasteners to prevent water infiltration, wood rot and lumber breakdown. Product comes packaged in individually wrapped and labeled rolls.

INSTALLATION

Cut WiseWrap Buty JoistTape to the proper length and center it over the intended area of application. Remove the release paper and press in to place. To maximize adhesion, press with a small hand roller. When overlapping material from end to end, a minimum of a two-inch overlap is required.

PRODUCT DATA

Material Color	Black
Roll Size - 1-5/8"	1-5/8" x 50'
- 3-1/8"	3-1/8" x 50'
Self-seals around screws and fasteners	Yes
Peel adhesion @ 25°F	13 lbf/in
Peel adhesion @ 150°F	2.2 lbf/in
Application Temperature	20°F - 170°F
Service Temperature	-70°F - 200°F
VOC Free	Yes
